

## Hanks HM<sup>2</sup> Twin – Two Single Crucible e-Guns™

---

### *Hanks HM<sup>2</sup> Twin – Two Single Crucible e-Guns*

Thermionics introduces twin – two single pocket 10 and 15 kW HM<sup>2</sup> e-Guns (ebeam). The HM<sup>2</sup> series provides unique modular magnetic design producing a more efficient electron beam. The Hyper-Unimelt 200 Hz sweep eliminates tunneling and source material eruptions. Plug-in emitter assemblies and sweep coil assemblies make the sources easier to service. Easy filament alignment, more efficient electron collimation, minimal filament distortion and elimination of electron trials.

### Features

- Elimination of beam curl
- UHV rated sweep coils included with source (200 Hz)
- Elimination of pole pieces
- Easy filament alignment
- More efficient electron collimation
- Minimal filament distortion
- Elimination of electron tails
- Optimal for co-evaporation
- Minimal crucible pocket spacing for ideal plume mixture
- Each source is independently water cooled
- Designed to eliminate cross talk interference
- Optional 3-point adjustable guide rail blocks

### Specifications

Operating Pressure	Below $5 \times 10^{-5}$ Torr is desirable for best operation
Emission Voltage	-7.5 to -10 kV
Filament	12 VAC 60A
Maximum Power	15 kW
Cooling Water	3 gpm (each source)
Pressure Differential	50 psi minimum
Maximum Bakeout Temp.	230°C
Crucible Volume	10, 15 or 40 cc

### Ordering Information

Description	Model No.
10 kW HM2 series two - single pocket e-Guns, 10 cc crucibles	D1010
10 kW HM2 series two - single pocket e-Guns, 15 cc crucibles	D1015
15 kW HM2 series two - single pocket e-Guns, 40 cc crucibles	D1540
